

GASCO[®]

5 Products That Will Change Your Skincare Routine

Made with Quality Aloe Vera

The Sasco® quality product line has been in circulation for over 45 years. For this achievement to be true, the products have to be of superior quality and also a credible value for the consumer's pocketbook.

So it goes without saying, that our customers are great endorsers of our products. That said, the Sasco® facial products are a frequent target of our customers' acclaims while giving Sasco® credit for their beautiful skin and complexion.

FACIAL CARE - NATURALLY FRESH (NF)

Understanding the basics of proper facial care and selecting the right products for your specific needs are the essentials of a radiant complexion at any age.

Sasco® Naturally Fresh facial product line is an effective combination of the finest natural and organic ingredients known to modern medicine for superb skin. Collagen, elastin, jojoba oil, vitamins and herbal extracts, all in a rich aloe vera base, help keep your skin its cleanest, clearest and most radiant. Naturally Fresh when used completely and consistently using the Sasco® Total Facial Care Program as described below will help maintain vibrant healthy skin. The mild cleansing and clarifying methods, united with advanced moisturizing and anti-wrinkling properties nurture and protect the skin cells.

Naturally Fresh products are formulated to give maximum results when used together. Mixing our natural ingredients with the chemicals found in other skin care lines may cause skin irritations and blemish breakouts.

How much time will it take to follow the Naturally Fresh regimen? Once you learn the proper use of each product you can expect to spend only a few minutes twice daily. Thanks to the superior blend of ingredients those minutes can transform your skin into a radiant complexion that glows with good health. Naturally Fresh is safe for all skin types because it contains no color, fragrance, sensitizing or acne-causing agents.

SASCO® TOTAL FACIAL CARE PROGRAM

Sasco® Naturally Fresh products are designed and formulated for use as a complete facial care program to cleanse, moisturize and rejuvenate. Using a complete skin care program daily will protect your skin from pollutants such as dust particles, dirt and other impurities, while still allowing pores to function properly.

1 Cleanse

Cleanse your skin and flush away excess oil, make-up, dirt and grime. This enables your pores to function properly.

SKU 10: NF Clenz Creme | SKU 11: NF Clenz Lotion

2 Stimulate

Stimulate your skin weekly by gently tightening and lifting to refine and clarify its texture. The purpose of stimulation is to draw local blood circulation to the surface to help begin new cell growth. It also helps lift impurities from the pores of the skin.

SKU 23: NF Stimulift Powder

3 Refresh And Tone

Refresh and tone to remove the last traces of cleanser or mask with a cooling final rinse. This restores your skin to its natural pH balance and closes and tightens the pores after cleansing. Refreshing and toning will help destroy skin bacteria that cause blemishes and prepares your skin to be rejuvenated and receive moisturizers.

SKU 16: NF Refining Toner

4 Rejuvenate

Rejuvenate your skin by adding natural oil and moisture to sensitive areas. Some areas of the skin lose or have limited capability to generate these youth creating substances. Because the aging process slows down production of natural oils and moisture in the skin, you need to supply these precious nutrients.

SKU 137: **Swiss Revitalizing Complex | SKU 39: Super Enriched Moisturizer | SKU 30: Essence of Jojoba

**In an effort to always supply you with the best product and value, we recently made a change to our packaging for Swiss Revitalizing Complex. We recommend twice a day application so we doubled the product amount and got rid of the box and printed insert. You get the same amazing formula but more of it for the same cost. It is a "Win/Win"

5 Moisturize

Moisturize your skin to help maintain a proper balance between moisture and oil. This provides a protective base that acts as a shield from the harsh effects of nature. The humectants in the moisturizer aid in the retention of the skin's own natural moisture. Moisturizing also provides a smooth base for applying your make-up foundation.

SKU 39: Super Enriched Moisturizer | SKU 18: NF A.M. Moisturizer | SKU 20: NF P.M. Moisturizer
